Florida 4-H Online Family Instruction Guide

In 2008 Florida 4-H introduced 4-H Online member enrollment. This has helped to address reduced staff support in many of our county offices and to modernize the capabilities of 4-H in providing quick response to our clientele.

4-H Online is designed to allow 4-H members and volunteers to enroll on-line. By the integration of 4-H Online, the club and county are not removed from the enrollment process, but instead, are provided the time saving process of not having to enter re-enrollment information every year. After the first year, re-enrollment can be renewed quickly online without paper forms.

Florida counties are implementing Online Enrollment in relation to their county needs and resources available. While some counties will continue to require enrollment forms and do the data input at the office, others will ask 4-H families (who have online capability) to complete their enrollments online.

As the utilization of this system increases, Florida 4-H will incorporate additional components into 4-H Online. In addition to ways of minimizing the amount of 4-H program management that is required on staff, we will also look at 4-H club management and events registration. Features of the new Florida 4-H enrollment include:

All members (youth and volunteers) are issued a life-time membership identification number that staff can use for 4-H management procedures (enrollment, registration, etc).

Members will have the opportunity to sign up for 4-H clubs, projects and groups. Approval of club membership and project participation will be provided by the club organizational leader and/or the county Extension office. All independent members will require the approval of the county office.

Once a membership record has been established, re-enrollment will be done through a simple update at the start of the new 4-H year without having to complete a new enrollment form. In Florida the new 4-H year will always begin on September 1. On or after September 1, 4-H members and volunteers will have to update their information to renew their enrollment.

4-H Online will continue to be a vital part of the Florida 4-H Youth Development Program. Our society has changed greatly to become more reliant on the use of technology in common everyday actions. 4-H must continue an aggressive position in providing avenues of technology for our 4-H participants. The online enrollment system is secure. The only people who will have access to your family information are your club organizational leader, county 4-H extension staff and state faculty (Regional 4-H Agent and State Online Administrator).

The following instructions will help you successfully enroll your family and 4-Hers in your club and county and to renew your volunteer leader roles. We are grateful for your cooperation and support of these changes. We feel in future years you will see a significant savings in time and cost (less travel and postage). This will decrease your trips to the extension office in order to meet those many program deadlines.
