Sarasota County Master Gardeners love everything about gardening, and we want to share our passion for plants in ways that make our community more beautiful, more sustainable and more enjoyable. That’s why we host our annual plant sale, a free party where master gardeners offer plant advice, identify plant problems and help you explore plant possibilities.

Help us get the word out to your members, who we know share our love of the gardens. If you have a neighborhood newsletter, we would greatly appreciate your including the following information about this year’s plant sale.

On behalf of the UF/IFAS Extension Sarasota County Master Gardener program, we invite you to our 11th Annual Plant Sale on Saturday, Oct. 8, from 8 a.m. to 1 p.m. at Twin Lakes Park, 6700 Clark Road, Sarasota. Master Gardeners will be onsite to offer plant advice, identify plant problems and help you explore plant possibilities. Come see thousands of great plants for sale—native plants, edibles, houseplants, succulents, tropical, and many more.

Whether you’re a gardening guru or a nature novice, this marvelous event has something for you. Thousands of plants grown by local master gardeners will be on sale, with proceeds benefitting community and school gardens as well as the Sarasota County master gardeners’ demonstration garden at Twin Lakes Park.

Cultivate your love of gardening. Visit the UF/IFAS Extension Sarasota County Master Gardener Plant Sale. To learn more, like us on Facebook, visit the plant sale website (sarasota.ifas.ufl.edu/hort/plantsale.shtml) or call the Sarasota County Contact Center at 941-861-5000.

However you can help us spread the word, we appreciate your time and effort.

Thank you, in advance,
UF/IFAS Extension Sarasota County Master Gardener volunteers
